

Case #3. Senior BVG

85 year old male, with a past history of venous ulcers for 12 years.

RIKTA treatment was introduced on June, 2005 to the ulcer sites on both legs. Quantum therapy procedures were applied three times a week, exposure time 30 min. After 3 months of quantum therapy three ulcerous places were skinned and the fourth one, the most large, was cut in half. Patient's mobility of both feet was got into condition.
